

Remarks

The amendment of the claims of this divisional patent application removes the claims of the originally filed parent patent application that have been allowed. It is respectfully requested that the preliminary amendment to the claims be entered into the application prior to a first examination of the application on its merits.

If it would advance the prosecution of this application, the Examiner is invited to contact the undersigned.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Bryan K. Wheelock", written over a horizontal line.
